### Rosehip (caffeine free)

A tasty herbal tea consisting of rose hips combined with hibiscus flowers and diverse fruit extracts. This creates a powerfully sweet tea. Rosehip is rich in vitamin C and it helps the body cleanse the kidneys and bladder.

### Natural Mint (caffeine free)

A refreshing tea, ideal to start the day with, or to drink at the end of a meal. Natural Mint Tea is a completely natural version of the traditional English mint tea, made simply with whole peppermint leaves and nothing else.

### Golden Flowers (caffeine free)

A delightful mixture of whole peppermint leaves and Golden flowers (chamomile and marigold). Golden Flowers is an exceptional tea blend, especially good at calming the digestion.

### English Breakfast

A much stronger tea, perfect to start your day. It has a malt aroma with a dark colour. We recommend you serve this tea with hot milk and some sugar, but it is also lovely with lemon. Our English Breakfast Tea is good for your digestion, supporting your inner health.

### Golden Citrus (caffeine free)

Lovely and vibrant, Golden Citrus contains Rooibos, a South-African herb. Lemon and orange peel are added, together with other natural herbs. The result is a refreshing medley with the aroma of a citrus fruit orchard. The wonderful blend of these ingredients gives this natural herbal tea a unique and delicious taste.

### Bombay Chai

Rich and exotic - a sensational mix for a traditional drink. Cinnamon, ginger, nutmeg and the full leaves of black tea make an exquisite combination of this intense yet tasteful tea. Gorgeous when it is freshly made, it can be served with milk and sugar for extra taste.
